

Incremental Progression (IP) Series

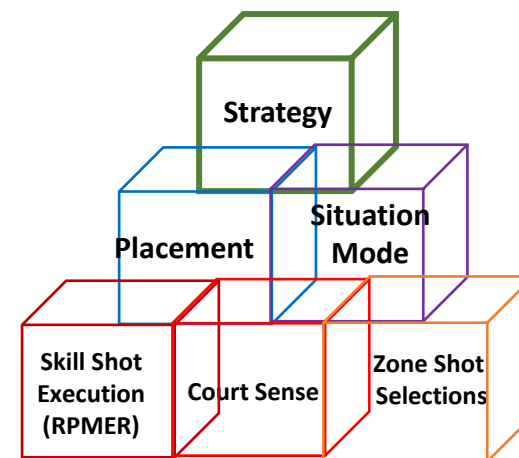

"Talent is a gift – Skill is a learned proficiency"

IP Academy Clinic

Playbook Development

IP Academy Clinics for the Spring Season will cover 5 module series. Skill shot development - Court Positioning - Shot Selection - Point Mgmt - Game Mgmt. The clinic format consist of lesson, demonstration, drill and match game. All players are grouped according to their rating levels.

Academy Clinic – Mission: develop an in-depth approach to playing smart pickleball. Each player possess different levels of physical attributes and sports background experience. We recognize the individuality of each player and assist them through a systematic process in understanding the “Inner Game of Pickleball). Our player development program focus on how to define your “playbook” with our 5-module program. The depth of each module will reflect the players rating level status.
